What We Do

Blockchain-powered traceability solutions for industries — from raw material sourcing to the end product, all trackable via a single QR scan.

Industries Served

- E-commerce
- FMCG & Retail
- Oil & Gas
- Pharmaceuticals
- Manufacturing

Core Capabilities

B2B Blockchain Solutions

QR Traceability

End-to-end product journey trackable from raw material to consumer via QR code scan.

Ledger Solutions

Immutable blockchain ledger ensuring tamper-proof records across the supply chain.

Anti-Counterfeiting

Verify product authenticity in real-time, protecting brands and consumers alike.

Source Transparency

Track raw material origins, certifications, and compliance at every supply chain node.

THE CHALLENGE

MSRvantage

Competing Against the Big 4 on a Startup Budget

Established Giants

Top-4 IT firms dominated the blockchain solution space with massive budgets, brand equity, and sales teams.

New Product, Zero Brand

MSRvantage was newly launched with no existing digital footprint, domain authority, or audience.

Constrained Budget

Pilot performance budget of ₹80,000 — a fraction of what enterprise competitors spend per week.

Niche B2B Audience

Reaching industry decision-makers in a highly specific B2B vertical required precision over volume.

Integrated Channel Strategy

A phased 12-month approach aligned to the marketing funnel

Q1 (Months 1–3)

AWARENESS

Top of Funnel

Channels

SEO · Brand Keywords · LinkedIn Presence

Q2 (Months 4–6)

CONSIDERATION

Middle of Funnel

Channels

SEO · Topical Blogs · LinkedIn Communities

Q3 (Months 7–9)

CONVERSION

Bottom of Funnel

Channels

Google Ads · LinkedIn DM Ads · Demo Landing Pages

Each channel's activity was progressively shifted based on funnel focus — budget & effort reallocated quarter by quarter.

SEO Strategy

Organic search growth across the 12-month funnel

MSRvantage

Q1 Top of Funnel

- Focused on ranking brand keywords first — easiest wins, fastest authority signals
- Built baseline traffic to 50+ active users/day before scaling keyword targets

Q2 Middle of Funnel

- Shifted focus to 10 target keywords with medium-to-low difficulty
- Moved rankings from pages 30–40 → top 20 results
- Topical blog writing to capture intent-driven organic traffic
- Off-page SEO: backlinking, spam link audits, domain authority building

Q3 Bottom of Funnel

- On-page optimisation: 404 redirects fixed, images converted to WebP
- Site hygiene: loading speed, bounce rate reduction for higher-intent visitors
- Target: 100 active users/day → 3,000 monthly visits
- Achieved: ~1,200 monthly sessions (0 → 1,200) within Year 1

LinkedIn & Social Strategy

Building organic B2B presence and community reach

MSRvantage

Q1 Top of Funnel

- Set up MSRvantage LinkedIn page with consistent branding
- Published industry-expert content on blockchain topics, use cases, and trends
- Hygiene posts: polls, infographics, topicals to educate decision-makers

Q2 Middle of Funnel

- Leveraged LinkedIn Communities for organic group sharing
- Employee advocacy: engaged internal team to reshare brand posts for amplification
- Organic connection outreach to ICP profiles — supply chain & ops decision-makers

Q3 Bottom of Funnel

- Maintained consistent posting cadence to nurture warm audience
- Reinforced brand authority alongside paid LinkedIn DM campaigns (see Performance slide)
- Achieved: 0 → 100+ followers organically

Performance Marketing

Google Ads + LinkedIn DM Ads — bottom-of-funnel conversion engine

MSRvantage
